

Select & Pay

Future-Ready Unattended Payments!

Take your business to the next level with our cutting-edge unattended payment solution! Designed for seamless integration with self-ordering kiosks, bill payment kiosks, vending machines, parking kiosks, EV chargers, and more. Our robust, splash-proof system ensures reliable performance in any setting. EMV-certified, it supports secure bank card transactions - including MyDebit, Visa, and MasterCard - as well as major e-wallets like TNG, GrabPay, Boost, and MAE. Experience effortless, secure, and versatile payments built for the future!

Key Features:

➤ Designed for Unattended Environments:

Engineered specifically for self-ordering kiosks, bill payment kiosks, vending machines, parking kiosks, EV chargers, and more.

➤ Durable & Splash-Proof:

Built for reliability with a rugged, water-resistant design that even works outdoors

Payment Methods

A certified payment gateway platform that accepts domestic and international schemes. Visa, MasterCard, MyDebit, and FPX.

E-Wallets

Supports domestic e-wallet payments. TNG, Boost, GrabPay, MAE, DuitNow.

International E-Wallets

Supports international e-wallet payments. Alipay(CN), Kakao Pay(KR), PayNow(SG), THAI QR Payment(TH).

MDB PORT

Supports most vending machine interfaces, include MDB and Serial Comport.

Parking API

Complete set of parking payment APIs to assist your migration of a conventional cash method to cashless payment in a parking environment.

Kiosk Payment

An API ready to integrate with any payment kiosk, self-order, EV charger, or bill payment machine.

MyRESIT

Electronic receipt app that allows customers to download receipts of any purchases made through our payment gateway, anytime, anywhere.

Support

Dedicated hotline to support your business.

E-Onboarding

Submit your merchant information to us online and we will take care of your full integration process.

Merchant Portal

Real-time transaction reporting on the merchant portal allows shop owners to view and analyse any sale performance.

Payout

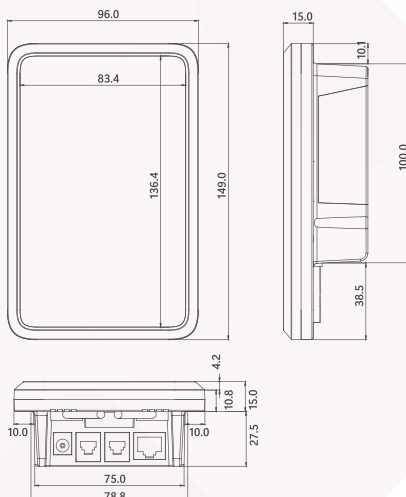

Receive transaction payouts to your account within 2 business days from terminal settlement date.

SDK & Integration

Seamlessly integrate your unattended kiosk machines with our SDK and start accepting fast, secure, and hassle-free payments.
